Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

(1). Applicant's Request-for-Continued-Examination (RCE) and Amendments filed on April 20, 2006 have been received and acknowledged.

Claims 1-47 are cancelled. Claims 48-61 are newly added:

The rejection of claims 48-61 is introduced in the following paragraphs.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 48-61 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In the specification, the examples show the active compound TF (Tolylfluonid) being incorporated into various water-based wood preservatives, such as binder alkyd/soya/linseed oil and acrylate dispersion in Example 1 and alkyd binder in Example 2. The 2nd step of contacting a paint with the aqueous binder containing active compound as claimed is not clearly disclosed in those examples. In the paragraph 6 of page 2 in the Specification, it recites that the aqueous systems is disclosed with binder and active compounds, then in the paragraph 7 of page 2 in the Specification, it recites that the preferred examples of aqueous systems are water-based paints, thus the preferred example of aqueous systems is the binder to be a water-based paints not vegetable oils. It still does not imply the 2nd step of contacting a paint with the aqueous mixture which may be a water-based paint already, nor indicate another water-based paint required for a fungicide containing water-based paint by contacting.

Art Unit: 1713

Claims 49-56 are rejected because their dependence on claim 48.

Claims 58-61 are rejected because their dependence on claim 57.
